AWARDS:

Please see attached resume

We would appreciate having a statement about your philosophy and work as an artist—either general or something specific about the piece(s) selected for this year's May Show to aid us in the preparation of gallery talks and in the release of publicity materials. For more space, use the back of this sheet.

white earthenware is the starting point for my wheel thrown, burnished, and pit fired forms. The use of natural grasses and organic plant materials imprinted by the smoke, fire, and atmospheric conditions lend each piece its individuality. Maximum control

}

is achieved by individual, and sometimes
~~repet~~ repetitive firing.

In my current work I try to build
layers of illusion like shadows on the
surface. You might call the effect abstractions
of a night sky. The elements of earth,
fire, and air are fused in the finished form.

Best Food Corporate Art Collection

Wilkinson and Associates Corporate Art Collection

Mr. and Mrs. Edwin Schlossburg

After attending The Cleveland Institute of Art and Miami University, I became a full time studio potter. My pottery is white earthenware that has been burnished and pit fired. Because the pieces are unglazed, and therefore somewhat porous, they cannot be used as containers for food or liquid. The surface variations are the result of slips, stains, terra sigillata, incising, resists, and paint. To achieve maximum control during the pit firing each pot is fired individually, sometimes several times.
